

# PRODUCT SPECIFICATION

<b>Brand</b>	Kasp
<b>Product Range</b>	Stainless Steel Padlock
<b>Catalogue number</b>	150
<b>Date</b>	16/09/2009

## Range Description

Closed Shackle Stainless Steel Padlock

## Features

Manufactured from a solid block of marine grade stainless steel, the robust Kasp 150 series is capable of meeting the stringent demands of high security industrial applications whilst offering the reassurance of an entirely corrosion resistant construction.

The 5-pin anti-pick cylinder is designed to withstand intelligent picking and manipulation methods, whilst the 9mm stainless steel shackle is secured in the locked position by 2 ball bearings, universally accepted as one of the most secure locking mechanisms available.

- Rust free internal components & drainage system – extra resistance against corrosion
- Closed Shackle – Additional protection from shackle attack
- Double ball bearing locking mechanism – Extra strength to resist torsion & pull attack
- 5 pin cylinder with anti pick mushroom pins – Extra protection against picking
- Paracentric keyway – extra protection against manipulation
